Items To Note

Do not count in box **b** any medical savings account (MSA) established by a rollover from another MSA.

Do not count in box **b** any MSA established from January 1 through April 15 of the current year for the prior year. For example, if an account holder opens an MSA on January 23, 1998, for 1997, do not count that MSA in the total in box **b**.

Purpose of Form

Use this form to report the total number of MSAs you established, the total number of previously uninsured account holders, the total number of excludable account holders, and the names and social security numbers of account holders. Definitions

Medical savings account. An MSA is a tax-exempt trust or custodial account established, created, or organized in the United States exclusively for the purpose of paying the qualified medical expenses of the account holder or the account holder's spouse or dependent in conjunction with a high deductible health plan.

High deductible health plan. A high deductible health plan is a health plan—

1. For self-only coverage, that has an annual deductible between \$1,500 and \$2,250, or
2. For family coverage, that has an annual deductible between \$3,000 and \$4,500, and
3. The annual out-of-pocket expenses required to be paid under the plan (other than for premiums) for covered benefits does not exceed—
 - \$3,000 for self-only coverage, and
 - \$5,500 for family coverage.

Previously uninsured account holder. An account holder is considered to be previously uninsured if the account holder's coverage under a high deductible health plan did not begin before July 1, 1996, and

- For self-only coverage, the account holder had no health plan coverage at any time during the 6-month period before coverage under the high deductible health plan began.
- For family coverage, both the account holder and the account holder's spouse had no health plan coverage at any time during the 6-month period before coverage under the high deductible health plan began.

If an account holder has family coverage and either the account holder or the account holder's spouse was insured at any time during the 6-month period before coverage under the high deductible health plan began or the coverage began before July 1, 1996, the account holder is **not** considered **previously uninsured**.

An account holder is considered previously uninsured even if the account holder had any health plan coverage listed below:

1. Insurance if substantially all the coverage provided under such insurance relates to:
 - Liabilities incurred under workers' compensation laws,
 - Tort liabilities, or
 - Liabilities relating to ownership or use of property.
 2. Insurance for a specified disease or illness.
 3. Insurance paying a fixed amount per day (or other period) of hospitalization.
 4. Coverage (whether through insurance or otherwise) for accidents, disability, dental care, vision care, or long-term care.
- See **Line c** and **Lines 1–20** below.

Excludable account holder. An account holder is considered an excludable account holder if all the following apply—

1. Account holder is **not** considered previously uninsured (as described above),
2. Account holder opens an MSA, and
3. Account holder's spouse has or had an MSA and was **not** considered previously uninsured.

If you simultaneously open an MSA for a husband and an MSA for his wife and neither is considered previously uninsured, treat either the husband or the wife, but not both, as an excludable account holder.

See **Line d** and **Lines 1–20** below.

Specific Instructions

Line a. Check the period for which Form 8851 is filed.

Line b. Enter the total number of MSAs you established during the period covered by this Form 8851. This includes all MSAs opened, even those for previously uninsured or excludable account holders. (Medicare+Choice MSAs cannot be established before 1999.)

Line c. Enter the total number of previously uninsured MSA holders. See **Previously uninsured account holder** above.

Line d. Enter the total number of excludable MSA holders. See **Excludable account holder** above. An MSA holder cannot be both previously uninsured and excludable. If you counted an MSA holder on line **c**, do not also count that holder on line **d**.
