# IRS Mandated Returns

- The IRS has mandated that any Form 1065 with over 100 partners must be submitted electronically; only 2% of 1065 returns (49K) were e-filed in PY 2003.
- IRS is currently in the process of evaluating mandates for Forms 1120 and 1120S.
- If the Service mandated that all preparers who file over 100 business returns transmit them electronically to the IRS, we estimate the following *e-file* volume based on PY 2003 filings:

Form 1065: 624,000 returns (26% of all Partnerships)

Form 1120: 382,000 returns (16% of all Corporations)

Form 1120S: 916,000 returns (28% of all S-Corps)

# State Mandated Returns

- **Six states currently impose a mandate for the electronic filing of individual state income tax returns on certain tax practitioners: CA, CT, MI, MN, OK & WI.**
- **The mandate is imposed on practitioners filing a certain number (usually 100) of individual income tax returns in the prior year.**
- **Additional states are planning to implement mandates, and California is planning mandates for e-filing business returns.**
- **States with mandates for practitioners had the highest rates of increase in federal *e-file* as a group for PY 2003.**

# Recommendations

- **Market BMF *e-file* to IMF Electronic Return Originators; active ERO's file over a million 1065's and 2 million 1120's on paper.**
- **Market BMF *e-file* to preparers rather than taxpayers; 85% of 1065 filers and 87% of 1120 filers use a preparer.**
- **Coordinate BMF *e-file* marketing efforts with EFTPS; in almost every form type there are people paying electronically who could also be filing electronically.**
- **Coordinate BMF *e-file* marketing efforts with states mandating electronic filing of 1040 returns; this segment represents the largest increase in federal *e-file* across the board.**
- **Additional IRS mandates should be preparer-based rather than based on the size or asset class of a business.**
